

SYED BAYZID

Web Developer

PROFESSIONAL SUMMARY

I am a dedicated and passionate Web Developer with knowledge of front-end and back-end development. I have experience building projects using HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB. I enjoy solving problems and creating websites that are user-friendly and responsive. I have completed several personal projects and I am always eager to learn new technologies. Now I am looking for an opportunity to grow my skills by working with a professional development team.

Work Experience

HobbyHub – Hobby Group Organizer Platform

Live Site: hobby-hub-01.netlify.app

Code: [GitHub Client](#)

- Built a full-featured MERN stack web app to create and join local hobby communities (e.g. art, games, sports).
- Implemented Firebase Authentication (Email/Password, Google Login) and protected routes for group creation/joining.
- Included dynamic theme toggle (light/dark) and animations using Lottie and react-awesome-reveal.
- Used React Router for routing and TailwindCSS for responsive, modern UI design.

Academix-Hub – Online Course Management System

Live Site: academix-hub.netlify.app

Code: [GitHub Server](#)

- Developed a platform where students can browse, view, enroll, and manage courses, while instructors manage their courses securely.
- Built role-based dashboards (Student & Instructor) with protected route access and custom functionalities.
- Integrated Firebase for authentication and real-time data, with modern UI and engaging animations (Lottie, Framer Motion).
- Focused on UX and clean component architecture with reusable React components.
